MESSAGE OF CHAIRMAN & MANAGING TRUSTEE

Planning a career is a continuous and on going lifelong process, which begins in choosing the course stream, getting a job and growing in the job. In this scenario, students need to choose their career options based on their interests, skills, priorities and work satisfaction. Students should always remember that there is a neck to neck competition for finding a space in the world where the phenomenon of "struggle for existence and survival of the fittest operates". A student who has not been guided on to set his goal and aim early in his school education naturally tends to become a "jack of all and a master of none". The purpose of this book is to assist high school students to make career decisions, and choose appropriate courses towards the achievement of their career goals. The booklet also explains everything right from how to fill up admission forms to percentage required to get admissions in different fields like Aeronautical Sciences, Engineering, Architecture, Law, Information Technology, Management, Medicine, Pharmacy, Nursing and Arts & Sciences. I am sure the booklet will be great assistance to the higher secondary students.

Wish you all Good luck.

Dr. P. MANJARASAN
Principal
Nehru Institute of Engg. & Technology
F.M.Palayam, Coimbatore - 641 104

MESSAGE OF CEO & SECRETARY

The missing link in career guidance is lack of counseling and guidance at school level which the Nehru Group has rightly filled the gap through bringing of a booklet on career guidance, throwing light on every aspect of gaining a sustainable and holistic futuristic livelihood. This early exercise forecasts "where, when and how" an individual can climb up in the futuristic ladder and exposes of one's potentiality "what he can be in future". Nehru Group of Institutions focuses its strategies to reflect to the most recent changes in the economy and job market guide the students in selecting the right career after school and provides lot of career options from which the student can choose one of his own. The placement training programmes offered through Nehru Corporate Placement and Industrial Relations (NCP&IR), provides all the essential information for adapting and to succeed in the marketplace. I am confident that this pioneering effort will come in handy to all the post-matric students, in early setting up of an aim and goal and to grasp an excellent career option with a more focused academic stream

Wishing you all the best

Shooting Sports, a thinking man's / women's sports as a therapy, can be applied to kindle one's emotions and to bring to life a whole new person. Shooting sports create opportunities to explore ones strength through

concentrated activities. Such experiences increase mental disciplines, yielding to sharpening and expansion of concentration levels. As a result of this, students learn to be independent, assertive, self reliant and have patience and gain maturity .

To achieve a healthier lifestyle while coping with the pressures of studying, one needs to be healthy both emotionally and physically. As a part of this process, NGI emphasizes the importance of sports, Gym, Yoga etc.. and considers them as an integral part of the curriculum.
